

SupportPole with SuperBar

An award winning, innovative, horizontal pivoting and locking bar that mounts to the SupportPole. Improve safety with additional gripping and weight bearing support.

Features and Benefits

- **Innovative.**
A gentle lift unlocks the bar. Keep the bar up to move freely. Let the bar down to lock. Provides 8 locking positions around the SupportPole.
- **Trusted Support.**
Push or pull on the bar to assist with sitting, standing and moving. To help prevent a forward fall, the bar will lock if released. Widely prescribed by therapists around the world.
- **Reduce Caregiver Strain.**
Maximize the use of available strength while a caregiver supervises. Promotes safe and independent movement.
- **Space Saver.**
Great for around the bath or toilet, where limited space can make it difficult for a wheelchair, walker, or rollator.

Technical Specifications:

SuperBar	16" / 40 cm length x 1.5" / 3.81 cm diameter grip. Locks every 45° (8 positions). Typically 24-38" / 61-97 cm from floor with limit of 58" / 147cm to ceiling.
